

**Dear
LAWA,**

“Not only is this program a good investment for the development of the airport, but it's important to the fabric of the surrounding community.

HireLAX gives hope to the otherwise hopeless.

Thank you.”

HireLAX: Access to a Life More Fulfilled Journeyman Devin Presley

How has your life changed because of HireLAX?

My life has changed tremendously. The program has unlocked my potential. HireLAX introduced me to the American dream . . . It made it a reality. It opened a world where I cannot only be independent but also offer support to my family.

This program helped me take control of my life and not continue to slip through the cracks of society. The program and the people that make this machine run, have given a voice to the forgotten members of the community. No matter the background or lack of access, this program takes away any excuse to not be successful. I have never felt more empowered or supported and it's a direct result of HireLAX.
