Safe Driver Checklist:

1. Be familiar with airfield layout, signs, and markings.
2. Conduct a walk around inspection of your vehicle & GSE to check the condition before driving.
3. **Never** drive on a taxiway or runway. Remain on vehicle service roads and ramp areas.
4. Do not stop inside zipper markings, these are where service roads cross taxiways.
5. Ensure there is no backup of vehicles before proceeding across zipper markings.
6. Always maintain situational awareness.
7. Yield to aircraft and emergency vehicles.
8. Know and comply with all AOA speed limits.
9. Reduce speed & use additional caution when driving in fog, rain, gusting winds & at night.
10. Use caution for aircraft engine jet blast.
11. Park only in designated parking locations.
