

THE AVIATION PHONETIC ALPHABET

In the world of Aviation, there is a different way of learning your ABC's. The Phonetic Alphabet is not only used by the military, but also by Pilots, Air Traffic Controllers, and Customer Service Agents within the Airlines. It is a great way to make sure you are understood (since a B, P, T, and V sound hauntingly similar when spoken), and an appropriate introduction to Aviation Lingo. Your guide has listed the letters and their corresponding words for you.
