## 1. Parking Structure 1: Smart Parking Project

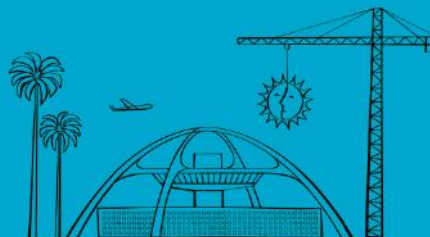

- Parking Structure 1 will experience a reduction in available parking stalls through November 2021 for the ABM Smart Parking Project
- Improvements will include installation of electric vehicle chargers, PGS systems and pay on foot stations, painting, resurfacing and restriping
- Signage is posted to assist with wayfinding; access to and from the structure and vertical circulation within the structure is maintained at all times
- This project will be performed in all parking structures in the Central Terminal Area; watch Construction Hot Topics for updates

Example of PGS System (top) and Parking Structure 1 location (bottom)

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.

## 2. Terminal 2 / 3: Construction Progress

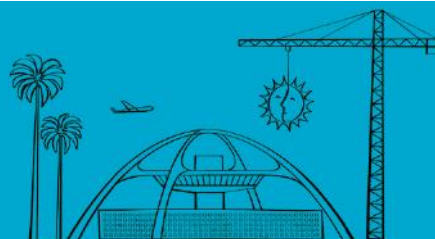

- Construction continues on the Delta Sky Way Program to renovate and modernize Terminals 2 and 3, including the “Terminal 2 / 3 Head House” which will connect the two terminals and provide access to the Automated People Mover’s Center CTA Station
- Pictured are two progress photos of the Terminal 3 satellite (right) and concourse (below) buildings currently; Terminal 3 was closed to the public and complete demolished last year to build the new structures from the ground up

*Terminal 3 satellite (top) and concourse (bottom) current construction progress*

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.

## 3. Consolidated Rent-A-Car (ConRAC): Construction Milestone

- Construction of the ConRAC facility reached a major milestone late last week with the final concrete pour for the Quick Turn Around building, which will serve as a maintenance area for rental car operations such as washing and fueling
- The ConRAC facility, scheduled to be operational in 2023, will consolidate rental car operations into one location near the 405 freeway and connect with the Automated People Mover for access to LAX

*ConRAC final rendering (top) and current construction progress (bottom) following the final concrete pour for the Quick Turn Around building*

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.
