1. Parking Structure 2A: Re-Opened

- Parking Structure 2A, which has been fully closed since late February 2022 for the ABM Smart Parking - CTA Garage Improvements project, has re-opened as of Friday, March 25
- Improvements installed during this closure include upgraded gate arms, a Parking Guidance System (PGS), Electric Vehicle (EV) chargers, and more
- The Smart Parking project is ongoing throughout all parking structures in the CTA with varying impacts by structure; improvements are scheduled to be complete by this summer
- For information on parking and real-time information, guests may visit <https://parking.flylax.com/>

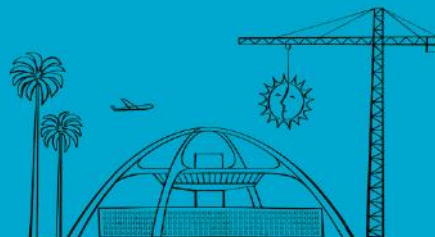

Please note: The roof level of Parking Structure 2A remains closed to facilitate guideway work for the Automated People Mover project. The roof of PS-2A is currently scheduled to re-open in October 2022.

*Parking Structure 2A has re-opened (closed since late February 2022)
Roof level remains closed through October 2022 for APM construction

Change is in the Air(port).

LAX WAY BETTER. REALLY.

3. Automated People Mover: Guideway Milestones

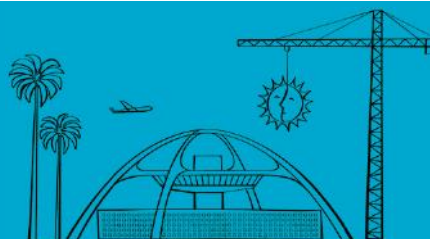

- The APM project recently completed its final concrete pour for the guideway segment spanning Parking Structure 2B
- Additionally, the project is scheduled to complete its final pour for the guideway segment spanning Sepulveda Boulevard later this week
- Following the completion of that pour, the APM's guideway will officially be fully connected from end to end, completing the 2.25 mile journey between the Consolidated Rent-A-Car facility (ConRAC) and the Central Terminal Area West Station near Tom Bradley International Terminal
- See the next page for more photos of the guideway's transformation!

As captured from a construction camera atop the Theme Building, this view shows the APM guideway and CTA Center Station over Parking Structure 2A and, in the distance, Parking Structure 2B
