## 1. Terminal 2 / 3: Construction Progress

- Construction continues on the Delta Sky Way Program to renovate and modernize Terminals 2 and 3, including the “Terminal 2 / 3 Head House” (pictured right) which connects both terminals and provides access to the Automated People Mover
- Pictured below is a progress photo of the Terminal 3 concourse building as it currently stands; Terminal 3 is closed to the public after being demolished last year to build the new terminal

*Terminal 2 / 3 Head House (top) and Terminal 3 Concourse construction (bottom)*

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.

## 2. Terminal 4.5: Construction Updates

- The Terminal 4.5 Core Project continues to make great progress following its “topping out” ceremony last month when the final structural beam was placed
- Upon completion, the Terminal 4.5 Core building will connect with the Automated People Mover’s West CTA Station and also provide vertical transportation for Terminals 4 and 5
- To facilitate current and future construction at this area, temporary pedestrian walkways are in place on Departures and Arrivals Levels roadway lanes to detour passengers around construction; traffic and passenger pick-up / drop-off is maintained at all times around these restrictions

*The future Terminal 4.5 Core building takes shape, pictured from Parking Structure 5*

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.

## 3. New In-Terminal Graphics

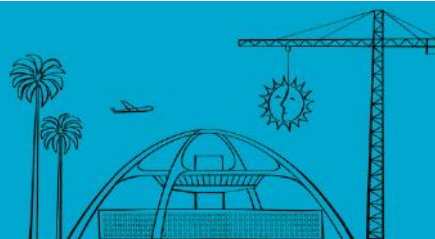

- As construction activities continue inside our terminals, graphics are being installed on construction and concession barricades to welcome guests and keep them informed on offerings such as [LAX Order Now](#) for contactless concession ordering
- Keep an eye out for new graphics as more projects get underway to modernize and renovate LAX

*New welcome graphics installed in terminals*

Change is in the Air(port).

**LAX** WAY BETTER. REALLY.

## 4. Intermodal Transportation Facility-West Construction Progress

- Construction activities for the ITF-West continue this month including painting, glazing, and installation of IT systems, utilities, lighting structures and other finishing work as the project nears completion
- Scheduled to open to the public later this summer, future construction at the site will include permanent power, equipment testing, installation of a pet relief area and final exterior work
- Located between Westchester Parkway and 96<sup>th</sup> Street, ITF-West will feature approximately 4,300 parking stalls and provide drop-off / pick-up locations for passengers
