Dear Mr. Byers,

On behalf of Los Angeles World Airports, I am pleased to submit the enclosed "14 C.F.R. Part 161 Application for Approval of a Runway Use Restriction" at Los Angeles International Airport and, pursuant to § 161.311, to request FAA review and approval.

In response to your instructions via email on January 4, 2013, we are submitting six printed copies of the application with full-size (1" to 2,000') sets of the flight track and contour figures, and 12 CDs containing pdf copies. We are also providing two printed copies with the full-size figures and four CD copies to Steve Karnes in the Northwest Mountain Regional Office, and three printed copies with the full-size figures and four CD copies to Dave Cushing in the Los Angeles Airports District Office.

As demonstrated in our application, the proposed runway use restriction meets all statutory conditions for approval. We expect you will find the application complete and provide such determination within 30 days of receipt, in accordance with §161.313, and that you will act on it within 180 days of receipt.

Please contact me via phone (424-646-6499) or email (statro@lawa.org) if you have any questions during the review of our application for the proposed runway use restriction.

Sincerely,

Scott Tatro
Airport Environmental Manager I
Los Angeles World Airports
Environmental Services Division

Enclosures: 14 C.F.R. Part 161 Application for Approval of a Runway Use Restriction at Los Angeles International Airport and Appendices (Hard copies and CDs)
