

The City of Los Angeles, Los Angeles World Airports (LAWA), has prepared a Final Environmental Impact Report (Final EIR) for the Los Angeles International Airport (LAX) Secured Area Access Post (SAAP) Project, pursuant to the California Environmental Quality Act (CEQA). LAWA intends to submit the LAX SAAP Project Final EIR to the Board of Airport Commissioners for certification. The Board will also consider approval of the project.

**Project Description:** The purpose of the proposed project is to construct a new SAAP to provide a fully functional, secured access point onto the Airport Operations Area (AOA) on the west side of LAX. A new SAAP is needed on the west side to replace SAAP 5, which was displaced by the Midfield Satellite Concourse North Project, and SAAP 21 which was taken out of service by Phase 2 of the West Aircraft Maintenance Area Project. The proposed replacement SAAP would accommodate all types of vehicles that require access to the AOA (construction, aircraft service vehicles, vendors, LAWA, etc.).

**Availability of the Final EIR:** The Final EIR and other environmental documents are available online on LAWA's website at [www.OurLAX.org](http://www.OurLAX.org). The Final EIR is also available for review at the following address: Environmental Programs Group, Room 218, One World Way, Los Angeles, California, 90045.
